

## **SEPM Student Member of Headquarters and Business Committee**

The Headquarters and Business Committee of SEPM is looking for a student member to volunteer to be on this committee. It is a 3-year term but you can continue even after reaching non-student status if that comes before the 3-year term is up. The term would last until December 31, 2024. The HBC usually meets three times a year online so no travel is required. The meetings last 2 to 3 hours.

The objective of the Headquarters and Business Committee is to assist in the advancement of sedimentary geology through advice to the SEPM Council and the SEPM Executive Director concerning matters of headquarters staffing, facilities, budgets, and financial policy. In the budgets and policy area this really has the HBC overseeing all of the SEPM's regular activities to consider the balance between promoting the science and balancing the financial aspects and is key to SEPM's sustainability.

If you an interest in this type volunteer work with SEPM please send a brief statement about your background and interest in volunteering to SPEM Executive Director Howard Harper at [hharper@sepm.org](mailto:hharper@sepm.org) by 31 May, 2022.
