

SEPM Web & Technology Councilor Position

SEPM is accepting applications from individuals that may want to become the next SEPM Web & Technology Councilor. This position is chosen by the Nominating Committee from among the applicants based on a letter indicating interest, a web-use background and a desire to see SEPM continue to expand and exploit the web for its mission. The next Web & Technology Councilor's term will run from January 1, 2023 to December 31, 2025 (three years).

The specific responsibilities of the Web and Technology Councilor include:

- Attending all regular Council meetings and any specially called Council meetings. More recently these meetings have been virtual. When in person SEPM provides limited travel support.
- Chair a Communications Committee that will stay abreast of ongoing advances in web-based networking, technologies and communication systems that may affect SEPM's operations and interactions with and between members.
- Work with SEPM's Digital Marketing Consultant as needed
- Report annually to Council on strengths and weaknesses of SEPM's web presence and digital communication systems, and recommend improvements and changes as to how SEPM makes use of web-based technologies, networking and communication.
- Accepting responsibility for special projects assigned by the President or Council

SEPM Council officers must be Active Members (i.e. membership dues paid). All types of membership are eligible to hold this office (Full, Associate or Student).

If you have the necessary background and are interested in joining the SEPM Council in this position, please send an email of interest to Howard Harper (hharper@sepm.org) before **August 1, 2022** describing your web background and interests and how you envision SEPM continuing and expanding its web presence – at www.sepm.org, www.sepmonline.org, and www.sepmstrata.org as well as social media - SEPM Facebook, LinkedIn, Instagram and Twitter. Additionally, if you have any questions about this role, time commitment or general responsibilities please feel free to contact the current Web and Tech Councilor, Erin Pemberton (erin.a.pemberton@gmail.com).

Sincerely,
Howard

Dr. Howard E. Harper, Jr.
Executive Director
